

Get the training and confidence you need to efficiently incorporate Invisalign treatment into your practice.

Intensive Hands-On full-day participatory **invisalign**

Limited-Attendance Clinical Workshop for **Orthodontists**

Presented by:

Mark Perelmuter, DMD, MS

Brad Goldberg, DMD

Louisville, KY: March 4, 2011

At this workshop, you will improve your skills in:

- *Diagnosis and treatment planning—expanding your Invisalign case selection*
- *Patient communications*
- *New G-3 Smart Force protocols for attachments, IPR, torque and tooth movements*
- *Efficient case submissions and successful treatment modifications with ClinCheck 3.0*
- *Sequencing 2 phase fixed / Invisalign treatment & increasing your teen cases*
- *Treating extraction, vertical, sagittal and transverse discrepancy cases*
- *Introduction of our new minimum-flash attachment-placement technique*
- *Effective monitoring and trouble shooting (Active patients will be seen at various stages of treatment)*
- *Mid-course, refinements & case detailing*

Not your standard lecture format. Doctors will jointly treatment plan and work through ClinCheck modifications of Dr. Perelmuter & Dr. Goldberg's cases as well as their own cases to hone their skills and confidence.

Dr. Perelmuter has practiced orthodontics for 30 years, is on the faculty at the University of Louisville School of Dentistry and is a popular speaker for Invisalign. He serves on the Invisalign Clinical Advisory Board, performing clinical research which has led to changes in ClinCheck and treatment protocol.

Dr. Goldberg joined the practice in 2006 and trains orthodontists in the use of TADs, the Wilson 3-D appliance and indirect bonding. Their Invisalign case starts have exceeded 1000, completing over 850.

Their seminars are interactive and very engaging. Perelmuter has given presentations at many U.S. and European Summits; given clinical seminars at Provider Workshops and Study Clubs across the country and in Europe; facilitated University and Orthodontic Invisalign Certifications; trained orthodontic residents; and designed and facilitated the staff programs for the IPWs and Clinical Techniques since 2006.

Attendance is limited to 12 orthodontists.

Fee of \$2195.00 includes:

- *Training for each doctor*
- *All materials and meals*

Registration deadline: February 14, 2011
